Re: Settlement of Civ. 20-3384 Benthos v. Etra

Dear Judge Parker,

Approximately 60 days ago we spoke with Aaron Etra, whom we have known through mutual business friends over the years, and learned of his situation with a failed transaction where the Seller did not deliver the product and now Mr. Etra was being held responsible for reimbursement to the Buyer.

Because we knew of Mr. Etra's integrity, we spoke with him and asked how we could help. We told him that we are the owners of certain Mining Claims in the United States that were going to be used for Project Funding in Europe and that all we were waiting for was the ban for Americans going to Europe to be lifted so that our funding representative can meet with his various bankers there to go forward and arrange for funds to be freely available to us and for providing assistance to Mr. Etra.

At that time, Mr. Etra explained that under the guidance of Your Honor a settlement between himself and the Plaintiff in the action against him was being discussed requiring funding which he himself did not have. He later reported to us that a settlement was agreed to on April 1<sup>st</sup> requiring a total payment of \$1 Million in regular monthly payments of \$83,333.33 beginning in April.

Though we hoped to be able to provide the timely assistance needed to meet the initial April payment and then to continue to make the equal monthly payments thereafter, it just was not possible in that exact time frame as the project funding involved overseas travel to Europe where the COVID outbreak banned travelers.

Now with the European travel bans being lifted and with his COVID vaccinations completed, our funding representative will be able to finally undertake travel. He will require two working weeks

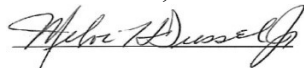

in Europe and up to 45 banking days to have available the funds we want to commit to Mr. Etra's settlement plan.

To be clear, the funding required for the settlement would have been fully available and paid in a timely fashion but for COVID, which has also delayed our company plans which have been pending since the beginning of the COVID crisis.

Therefore, we respectfully request that Your Honor order that the settlement remain in force and that Aaron Etra be given 60 days to make the first payment, as that is the time frame we are anticipating. In recognition of this delay, Mr. Etra's first payment would be for four months of \$83,333.33 each, and then would continue after that for the \$83,333.33 per month until the full amount has been paid.

Mr. Etra is a good man trying to do his best for all concerned and deserves this consideration.

With thanks,
